

Table A – Results of Internal Review Committee

Date of Report: July 1, 2005

Water Body Under Evaluation:

Identification #: 1738
Name: South Fork Isle De Bois Creek (C)
Length of Segment: 3.5 miles
County (ies): Ste. Genevieve

Use Attainability Analysis Study:

Identification #: 0308
Submitter: DNR Staff - Mary Clark
Date Received: July 6, 2005
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Completeness Check:

All Required Information Included?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Correct Forms Used?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Forms Signed and Dated?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Comments:		

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
- ☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in July 2005 and WBCR was not observed at any of the three sites evaluated. The stream did not meet the maximum or average depth criteria at any site. Evidence of use was observed at two sites (footpaths, trash, bottle rockets). Because of the overall shallow depth of the stream, the committee recommends removing the WBCR designation. However, the stream should be considered for Secondary Contact Recreation designation.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive

Committee Members: Anne Peery, Priscilla Stotts, Kimberly Hoke
